Subject: Comment on a Motion/Request for Reconsideration (Re-Hearing), Docket: SW-0130

Dear Chairman Pierce and Commissioners:

Posted on the above docket today is the request to reconsider/re-hear Decisions: 72047, 73227, and 73230 pertaining to the issue of Anthem's Wastewater deconsolidation case and the Winter Average Rate (WAR) case heard before the Commission. The plea requests clarification as there is purported confusion regarding the decision(s) for each in that the deconsolidation decision supposedly supplants the WAR decision.

In my opinion, after following the case(s) closely there is no connection, overlap or replacement between these two issues (deconsolidation and WAR). Each decision clearly states the findings of fact and intent. If deconsolidation was meant to supplant the WAR, then one has to ask: "If deconsolidation was not approved, would the WAR still go into effect, per Decision 73230? The answer would be: "yes".

I also believe to involk ARS 40-252 is not warranted as there is no basis given in the plea to reconsider. What is the claim? What result of the decision(s) warrant this action.....rate imbalance?

Clearly, it is my clear understanding that that deconsolidation and the implementation of the winter wastewater average rate program are independent and should go forth as such.

Respectfully submitted,

Bob Golembe

Subject: Addendum Comment on a Motion/Request for Reconsideration (Re-Hearing), Docket: SW-01303A-09-0343
Attachments: Extract.pdf; Anthem.pdf; Rates.pdf

Dear Chairman Pierce and Commissioners:

After further reviewing the motion and case evidentiary data, I hereby submit the following for consideration:

First, as an Anthem resident, the Anthem Community Council never presented any comment or discussion public or private that the deconsolidation plan (3-year phase-in) was intended to supplant the winter wastewater average program (WAR). In fact, quite the contrary as cited in the case hearing evidentiary filings that cites the Anthem Community Council **advocating** this plan with a delay of implementation to help educate and inform Anthem ratepayers. This is cited in the attachment: Extract.pdf pages 13 and 14 from "Anthem's Community Exceptions to the ROO", docketed April 21, 2012. See the yellow highlighted paragraphs. The full reply to the ROO is also attached for completeness.

If there was confusion regarding this issue, it is then appropriate to ask why the "experts" did not bring it before the judge and discussed? Two decisions were passed by the Commission regarding both deconsolidation and the WAR with the latter decision to delay its implementation. With these two decisions, EPCOR recently prepared a rate sheet (see attachment, Rates) that shows the combined 3-year rate schedule deconsolidation **AND** winter wastewater average plans scheduled to go into effect June 2013. It appears that EPCOR is not confused as to the direction set forth by the Commission per your decisions.

It is with this information that a clear statement has been made by the Arizona Corporation Commission and any re-hearing should be denied.

Respectfully submitted,

Bob Golembe
Anthem
